# 2010 LINCOLN MKZ

Lincoln signature design elements and improved powertrain performance are the foundation of the new 2010 Lincoln MKZ, which builds on a heritage of elegant modern design, unparalleled comfort, unrivaled features and top quality.

Its new, chamfered front fascia shares a family resemblance with the Lincoln MKS, with a sculpted hood and ridges flowing into the A-pillar.

The Lincoln signature split-wing grille and thinner wraparound headlamps provide for a wider, sportier look. The rear features a new decklid with wider LED taillamps, accentuating the width of the car.

Powertrain performance also has been increased dramatically, with 0-60 mph times dropping from 7.7 to 7.1 seconds.

Inside, the Lincoln MKZ's cabin reflects an even more upscale look with genuine aluminum and wood and an all-new instrument panel. Detailed touches include new welcome lighting, chimes, tuxedo stitching on luxury leather seats and Bridge of Weir leather.

## SAFETY

- SOS Post Crash Alert System, four-wheel disc anti-lock braking system (ABS) and Ford's Personal Safety System, which includes:
- Seat Track Position Sensor – Driver seat position is monitored to determine inflator output.
- Load-Limiting Retractors – Provide a suitable level of restraining force through the safety belt to the occupants.
- Steering Column – Design provides an optimum level of energy absorption.
- Dual Stage Air Bags – Additional air bag inflation levels provided by incorporating a variable time delay between the 1st and 2nd stage output.
- Enhanced Occupant Classification System – Front passenger seat sensor identifies three states of occupant classification: empty seat, child presence and adult presence.

## NEW IN 2010

- Six-speed SelectShift automatic transmission and front-actuated shifter
- Cabin air filter to remove respiratory irritants and toxins caused by traffic and industrial pollution
- Available Adaptive HID headlamps that rotate according to speed and steering inputs for greater visibility
- Available rain-sensing wipers, which activate when windshield moisture is detected
- New instrument panel with next-generation center stack
- Armrest clamshell storage and leather-wrapped steering wheel with genuine wood accents
- Premium Bridge of Weir perforated leather-trimmed seating surfaces
- Easy Fuel™ capless refueling
- Available Blind Sport Information System with Cross Traffic Alert
- Available reverse camera system
- THX® II Premium Certified Audio System with 5.1 Surround Sound.
- Available Voice-Activated Navigation System with integrated SIRIUS® Travel Link™
- Lincoln SYNC™ with 911 Assist and Vehicle Health Report

## NEW SPORT APPEARANCE PACKAGE

New for 2010 is the addition of a sport appearance package, which features:

- Special sport suspension tuning with stiffer springs and larger stabilizer bars
- 18-inch Euroflange polished wheels
- Unique grille and darkened headlamps
- Interior with contrasting piping and unique appliqué
- Available all-wheel drive (AWD) system for better traction and lower noise, vibration and harshness

## VITAL STATS

**Production location:** Hermosillo (Mexico) Stamping and Assembly Plant

**Powertrain:** Duratec 3.5-liter V-6 engine with premium six-speed automatic transmission with standard electronic stability control, 263 hp @ 6,250 rpm, 249 lb.-ft. of torque @ 4,500 rpm
