

2011 Ford Edge Sport

Class-leading power, bolder look, industry-first technologies

The 2011 Ford Edge Sport is the ultimate version of the popular midsize crossover for those seeking renowned Edge style and fun-to-drive experience at the highest level. The 2011 Edge Sport has best-in-class 305 horsepower, class-exclusive 22-inch wheels and industry-first MyFord Touch™ driver connect technology all standard. Here's a look at the key features of the 2011 Edge Sport:

MyFord Touch

Industry-exclusive driver connect technology displays information using two 4.2-inch full-color LCD screens flanking an analog speedometer and an 8-inch touch-screen LCD at the top of the center stack.

Sony® Audio System

Comprised of 12 high-quality speakers and a Class D all-digital amplifier, the Sony system has the ability to pump out 390 watts of continuous power.

Leather-trimmed seats

Leather-trimmed seats with contrast stitching, Silver Smoke metallic leather inserts and 10-way heated power driver seat with power lumbar and memory settings.

3.7-liter V6

New engine employs advanced valvetrain technology for an optimum combination of power (best-in-class 305 horsepower, 40 more than outgoing Edge Sport) and fuel economy (18 mpg city, 25 mpg highway).

New paddle shifters

Upshifts and downshifts can be commanded while in Drive.

Bold design cues

Tuxedo Black painted grille, unique headlamp and taillamp treatment and dual oval chrome exhaust tips.

Factory body kit

Unique body-color front and rear fascias, door caps and side skirt rocker moldings.

Class-exclusive 22-inch wheels

Forged aluminum wheels, a popular aftermarket choice, feature Tuxedo Black spoke accents and polished finish. Engineered to complement the sport-tuned suspension and treated to resist corrosion.

Sleek interior accents

Aluminum-covered brake and accelerator pedals and Liquid Silver Smoke appliques highlight interior.
