

# 2011 FORD MUSTANG

For 2011, the Ford Mustang breaks new ground as not only the most fuel-efficient Mustang ever, but also the first production car in history to produce more than 300 horsepower and more than 30 mpg highway.

Models equipped with the 305-hp 3.7-liter V6 and available six-speed automatic transmission achieve 31 mpg highway and 19 in the city. With the standard six-speed manual transmission, the same engine is rated at 29 mpg highway, 19 city.

Mustang also ups the ante on technology and convenience features for 2011, with a driver's message center in the instrument cluster and integrated blind spot mirrors plus Ford's MyKey™ system to encourage safer teen driving.

## SAFETY/STANDARD

- High-strength steel in the body and ultra-high-strength steel in the door intrusion beams
- New Electric Power Assist Steering (EPAS) with Pull-Drift Compensation and Active Nibble Control
- AdvanceTrac® electronic stability control
- Anti-Lock Brake System (ABS)
- Integrated blind spot mirrors
- Personal Safety System™ with dual-stage driver and front passenger airbags, seat belt pretensioners and Belt-Minder®
- Driver's message center
- MyKey system for parental control
- Easy Fuel™ capless fuel system

## NEW IN 2011

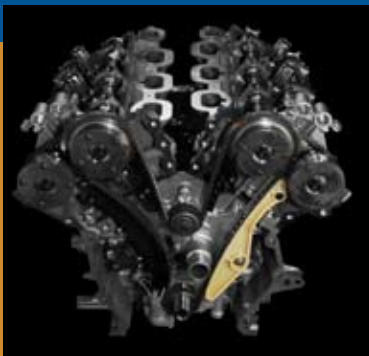

- All-aluminum 3.7-liter Ti-VCT V6 engine with 305 horsepower
- Die-cast aluminum deep-sump oil pan allows 10,000-mile oil change intervals
- Six-speed automatic or manual transmission
- Freshened front fascia, underbody shields and other aerodynamic improvements
- Enhanced chassis improvements and soundproofing
- EPAS with Pull-Drift Compensation and Active Nibble Control

## NEW HIGH-PERFORMANCE ALL-ALUMINUM 3.7-LITER V-6 ENGINE

Mustang's new 3.7-liter 24-valve V6 uses Twin Independent Variable Camshaft Timing (Ti-VCT) to adjust the valvetrain in microseconds for more low-speed torque and better fuel economy than non-VCT-equipped engines.

Combined with low-friction engine components and aluminum construction, this high-revving V-6 delivers remarkable power output – 305 horsepower and 280 ft.-lb. of torque – while still achieving up to 31 mpg highway.

## VITAL STATS

**Powertrain:** 3.7-liter Ti-VCT V6, 305 hp @ 6,500 rpm, 280 ft.-lb. torque @ 4,250 rpm

**Body style:** Coupe and Convertible

**Fuel economy:** 19 mpg city/31 highway with six-speed automatic, Coupe; 19 mpg city/30 highway with six-speed automatic, Convertible; 19 mpg city/29 highway with six-speed manual, Coupe and Convertible

**Production location:** AutoAlliance International Plant, Flat Rock, Mich.

**MSRP:** Starting at \$22,145
