

# 2011 FORD TAURUS SHO

Taurus SHO is back for 2011, powered by a Super High Output (SHO) EcoBoost™ twin-turbocharged engine. Its foundation, a 3.5-liter V6 engine, generates an estimated 365 horsepower at 5,500 rpm and 350 lb.-ft. of torque at 3,500 rpm, resulting in significantly improved power, torque and fuel economy compared with larger, normally aspirated engines.

A key element of the authentic SHO formula is the subtlety of its exterior design. Features include sporty premium painted wheels wrapped in standard low-profile 19-inch Goodyear Eagle or optional 20-inch Michelin high-performance tires, a decklid-mounted spoiler and twin chrome exhaust tips. The car also features a uniquely finished interpretation of the Ford signature three-bar grille with SHO-specific parking lamp bezels.

The SHO interior encourages performance driving. Leather-trimmed seats with Miko suede inserts, made from recycled post-consumer yarns from plastic soft drink bottles, are comfortable and luxurious. Front seats are 10-way power adjustable. SHO accelerator and brake pedals are trimmed in aluminum. The console, instrument and door panels feature SHO-specific authentic aluminum appliques. SHO branding appears on the unique floor mats and on the passenger side of the instrument panel.

## SAFETY/STANDARD

Standard safety features include:

- SPACE (Side Protection and Cabin Enhancement) Architecture®
- Personal Safety System®
- AdvanceTrac® electronic stability control
- SOS Post-Crash Alert System™
- MyKey® programmable vehicle key
- Tire Pressure Monitoring System
- LATCH (Lower Anchors and Tether Anchors for CHildren)

## EPAS

Taurus SHO features an advanced electric power-assisted steering (EPAS) system providing responsive road feel and enhanced on-center balance while offering the additional benefit of increased fuel economy. EPAS also reduces the load on the engine because a belt-driven power steering pump is no longer required.

## VITAL STATS

**Powertrain:** 3.5-liter EcoBoost™ V6, 365 hp @ 5,500 rpm; 350 lb.-ft. @ 1,500-5,250 rpm

**Fuel economy:** 17 mpg city/25 mpg highway

**Production location:** Chicago Assembly Plant, Chicago, Ill.

**MSRP:** Starting at \$38,595

## PERFORMANCE PACKAGE

For the discriminating automotive enthusiast, Taurus SHO offers an available SHO Performance Package consisting of upgraded brake pads, recalibrated electric power-assisted steering for even more responsiveness, a sport mode setting for the standard AdvanceTrac® with electronic stability control and a shorter 3.16 to 1 final drive ratio for faster acceleration. Summer-compound 20-inch Goodyear Eagle F1 performance tires on premium painted wheels also are included.
