

2012 FORD E-SERIES

The Ford E-Series, America's favorite full-size van for 32 consecutive years, offers legendary durability and toughness to legions of customers. Connectivity options such as Ford's acclaimed SYNC® voice-activated communications and entertainment system, navigation and HD Radio™ keep E-Series drivers and passengers plugged-in and informed. For hauling people or cargo, Ford E-Series wagons and vans are ready to go to work for personal-use and commercial customers alike.

NEW AND NOTABLE

- Ford E-Series vans and wagon add a vibrant new Steel Blue Metallic exterior color
- An audio input jack is now standard equipment in all E-Series vehicles
- Cast-aluminum wheels are now available as an option
- A dual-battery system is now offered for commercial applications

LEGENDARY DURABILITY

E-Series vans and wagons offer unmatched durability and dependability. According to R.L. Polk data, there are more E-Series units on the road with 250,000 miles or higher than vans from any other manufacturer. Built Ford Tough with double-wall construction, E-Series vans and wagons are designed to get the job done, day after day, week after week. In addition, commercial- and personal-use customers can choose from a broad range of heavy-duty options, tailoring E-Series to their specific application needs.

CLASS-EXCLUSIVE FORD SYNC

Unique among full-size van offerings, Ford's acclaimed SYNC system allows drivers to use their connected mobile device and MP3 players with hands-free voice activation. This allows E-Series drivers to keep their hands on the wheel and eyes on the road. SYNC includes 911 Assist™, Vehicle Health Report, Traffic, Directions and Information with turn-by-turn driving instructions.

FUEL ECONOMY

4.6-liter V8: 13 mpg city/17 mpg highway

Did you know? 4.6- and 5.4-liter V8 E-Series engines in non-ambulance applications are flex-fuel capable. In addition, the 5.4-liter V8 and 6.8-liter V10 engines are available with a compressed natural gas (CNG) or liquefied propane gas (LPG) conversion preparation package
