# Flash Blocked in Chrome When Joining Webcast

Follow these steps if Chrome prompts that Flash is blocked when joining a webcast.

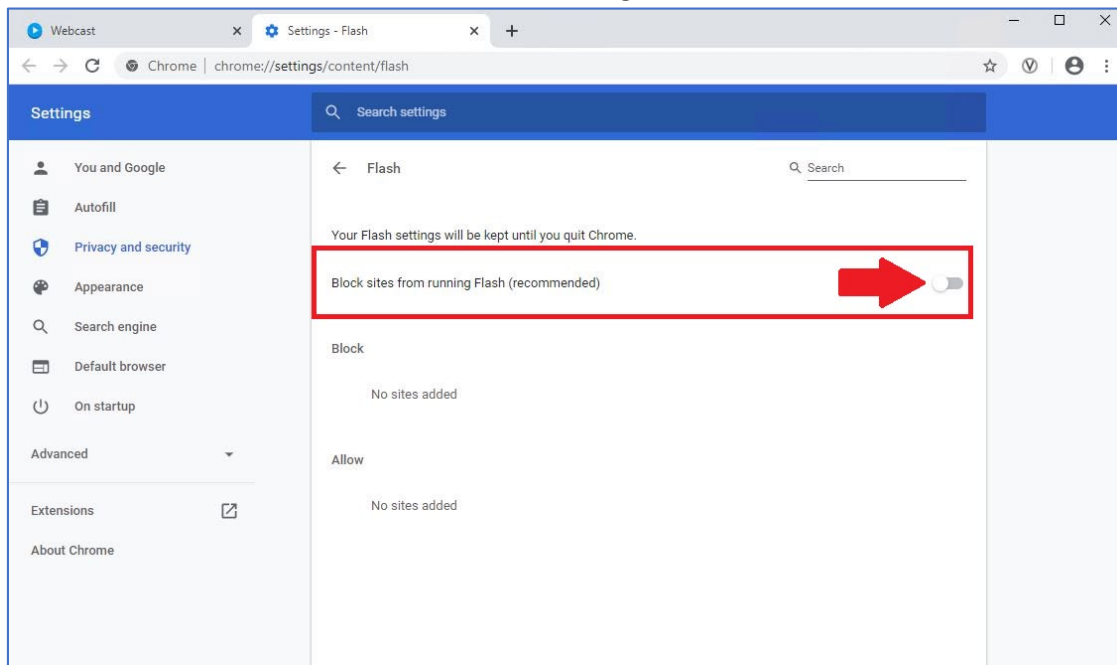

1. Click on the blocked plug-in icon in the right-hand side of the address bar.

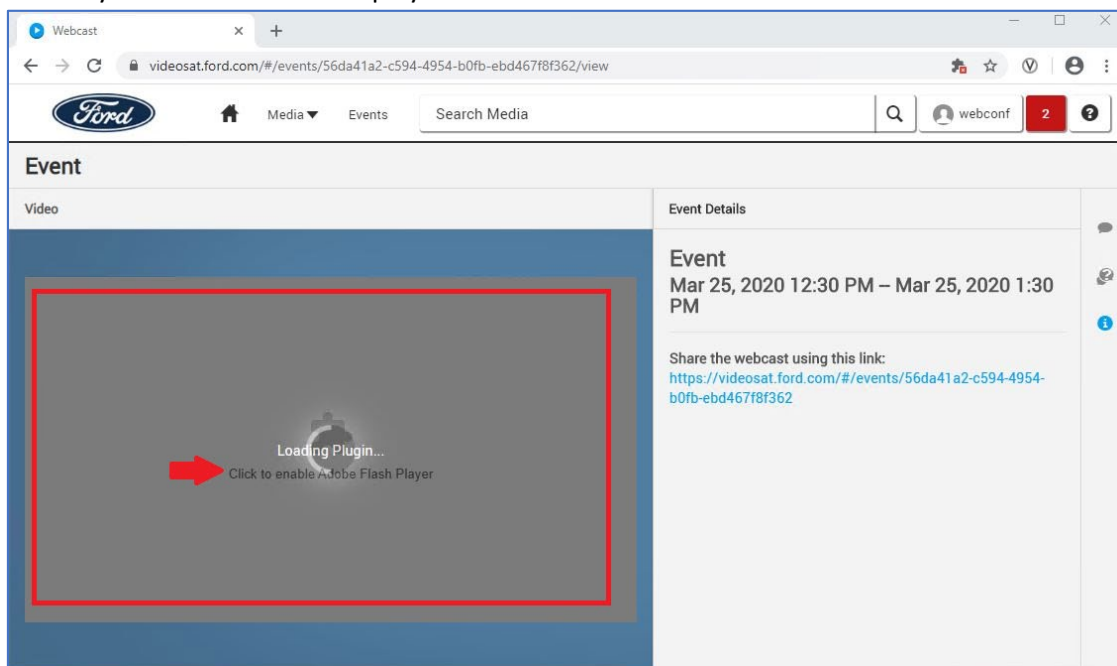

2. Click **Manage** in the dialog box.

3. Click on the switch next to "Block Sites form Running Flash"

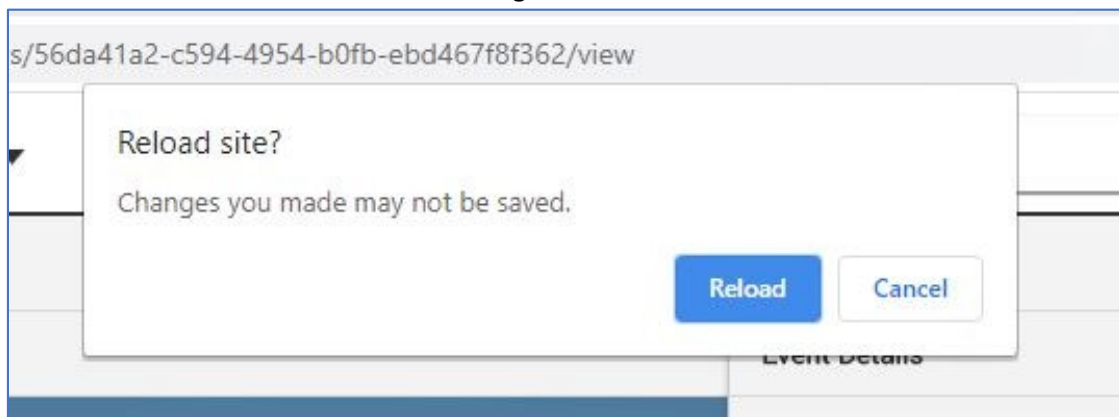

It will change to "Ask first"

4. Close the Settings tab.
5. Click anywhere in the webcast player window to load Flash

6. Click **Allow** in the "Run Flash" dialog box.

7. Click **Reload** in the next "Reload site" dialog box.

The page will reload, and video will begin playing. As always, remember to unmute the video player.
