

COVID-19 Protocol Update

COVID-19 Update: **Social Gatherings**

We continue to navigate the impact of COVID-19 and monitor community and internal case data closely. The health and safety of our team remains our top priority.

Based on the sharp increase in COVID-19 cases across most of the U.S., the highly infectious nature of the Delta variant and the recent mandate for face masks regardless of vaccination status, the Care Team is recommending **all non-business essential indoor and outdoor gatherings, on or off property, be postponed until further notice.**
